Summary

I have always believed in sharing knowledge to thrive in a developing environment. Currently seeking a job in an institute that supports mutual growth in order to pursue my career, to understand the practical implications of the field and have a better understanding of its theoretical base.

Taught gradation and post - graduation courses for economics subjects like micro & macro economics , agriculture economics , industrial economics , development economics , public economics .

Handled key positions in the institute involving examination , assessment and college development responsibilities.
