Madam,

I am writing this letter on behalf of Keshav Srushti, please have a look at the attached brochure giving details about our non-profit organization.

We have embarked on an outreach programme, under which we have already engaged 120000 students in a Solar Oven Cooking session (successfully registered with Guinness Book of World Records), created 10 dense forests in Mumbai using Akira Miyawaki technique, converted 50 religious places waste complaint and efforts are on to make 45 model villages in Palghar district.

Taking this opportunity, we wish to propose the following,

1. We wish to create a dense forest in your college campus, we need 2000 SQ FT area preferably with a water connection. Using Akira Miyawaki method, we shall plant all native trees, this forest will grow 10 times faster. We shall arrange for the funds, while involvement of your students shall be more than solicited.
2. Install 2 tumblers in your college canteens, kitchen waste and refuse shall be converted into a compost. Once again, tumblers shall come free of cost and our team members shall be providing a complete hand holding to successfully implement composting.

Hope you shall seriously consider our proposals, in case, you wish to have more information about our organization and the proposed activities, please feel free to call us for a one to one discussion.

Regards,

Vinay Nathani

जोगेश्वरी (पूर्व), मुंबई ४०००६०.

Inward No. ...२४४४...
Date: 11/07/2019
File No.:

विषय: प्रभाग ७२ मधील इस्माईल युसुफ कॉलेज जोगेश्वरी पूर्व मुंबई
६० येथे २००० स्केअर फुट जागेवर शहरी जंगल बनविण्यास परवानगी
देण्या बाबत.

महोदय

मी प्रतिनिधित्व करित असलेल्या प्रभाग क्र ७२ मधील इस्माईल युसुफ
कॉलेज जोगेश्वरी पूर्व मुंबई ६० येथे जोगेश्वरीतील खूप मोठे मैदान आहे व
त्या आजूबाजूचा परिसर हा पूर्वी दाट झाडीचा होता परंतु आता येथील खूप
झाड पडली आहेत व झाडांची दाटी कमी झाली आहे. येथील स्थानिक
नागरिकांची मागणी आहे कि येथे झाडांची लागवड व्हावी. तसेच कम्पोस्ट
मशीन व कम्पोस्ट टम्बलर ठेवण्याची परवानगी द्यावी. त्यासाठी येथे २०००
स्केअर फुट जागा या झाडांच्या लागवडीसाठी द्यावी ही नम्र विनंती.
धन्यवाद

स्नेहांकित

श्री पंकज यादव

No.IYC/२०२२/२२४

Date: ३१/१/२०२२

Subject: Permission to develop Miyawaki forest Biodiversity Park at Ismail Yusuf College, Jogeshwari, Mumbai.

1. The College grants permission to "Forest Creators" to develop Miyawaki bio diversity park through Miyawaki and conventional plantation drive with your team, volunteers, corporate partners & gives permission and also allows regular visits of our team, volunteer's , for maintenance , Health check-up and audit of the projects for next 10 years or till the project is alive, whichever is earlier.
2. Permission is granted for Photography and videography for activities carried out for developing Miyawaki Forest and to share them on social media platforms with due acknowledgement to College.
3. The College shall provide free land to dispose of the debris/stones before and after the excavation process of Miyawaki plantation, if there are any debris at the site.
4. The College shall provide regular water source, safety, security(fencing) from cattle's, fires and unwanted social elements to planted saplings till they become self-sustainable grown trees.
5. Forest creators shall be allowed to erect board/ stand in with a brief detail of the project and plant species details with forest creators and partner's name/logos.
6. The ownership of the reduced carbon-dioxide emissions and resultant attributes from the College forestry and plantation projects can be claimed by forest creators for the entire duration of the projects with due acknowledgement to College.
7. The College assures that saplings planted in our premises would be never be cut down nor damaged for any developmental activities, we also confirm that there are no legal issues/dispute in allotted plantations land.

We would like to express our gratitude for your noble cause of doing tree plantation with us and thank you for your valuable support and care for Mother Nature and Environment for a greener Jogeshwari.

Sub: Developing a miniature City Forest using Akira Miyawaki technique

Dear Sir,

Greetings from Keshav Srushti.

We would like to develop one more City Forest Site in your esteemed College using Akira Miyawaki Technique with various species of native trees.

We request you to allot 25000 sq. ft. We shall immediately use 3000 sq. ft and balance will be utilised during the year based on Sponsors. Using this technique, plants grow faster and a very high density of plantation is possible. In the long term, the site takes the shape of a forest, produces a lot of Oxygen and above all attracts birds and insects.

We shall cater to the entire cost of implementation such as:

1. Plantation
2. Drip irrigation system
3. Compostable mulching film to avoid weeds
4. Fencing for protection of the site
5. Monthly visit to the site to monitor the growth

On the other side, we seek your kind cooperation on the following points,

1. Issue us a letter to develop the site
2. Give us a water connection or space for boring well
3. Watering shall be done by your team
4. Gives us access to the site during our regular visits
5. Allow us to put an informative board giving technical details and due credit to our sponsors

Hope you shall allow us to develop a miniature forest in your area and looking forward to receive your esteemed confirmation.

Thanking you

For Keshav Srushti
