## 15. SCHOLARSHIPS

Scholarships and awards play an important role in the progress and upliftment of student performance.

College always encourages students to apply for various scholarship schemes deserving of them. There is a dedicated committee of teachers with a clerical staff working for this purpose. The meritorious students from all categories and the students under different reserved quotas taking admissions in the college can take benefit of different scholarship schemes offered by government as well as private institutes.

Computers with internet connectivity have been provided in the college for students to register themselves online for the scholarship schemes. Also, the scholarship committee organises numbers of lectures and presentations to resolve queries about scholarship in students mind and guide personally till the queries are to be solved.
